Portfolio: [guilhermedoprado.com](https://www.guilhermedoprado.com)

Location: Florianópolis, Brazil — Open to relocation to Germany

PROFESSIONAL SUMMARY

Procurement analyst and mechanical production engineer with hands-on experience in international sourcing, electronic components, and end-to-end purchase-to-pay operations. Engineering background adds direct value in supplier qualification, technical specification review, BOM analysis, and TCO-driven negotiations — relevant for the automotive, industrial, and capital goods environments of the German market. Translates spend data into decisions through Power BI, Qlik Sense, and advanced Excel. Track record across RFQ/RFP cycles, supplier qualification in Asia and Europe, and import coordination. Open to relocation to Germany; actively learning German (A1 — targeting B2 by mid-2026).

EXPERIENCE

- Hennemann Supply Chain Consulting** Florianópolis, Brazil
 - Procurement & Data Consultant* May 2023 – Jun 2025
 - **Strategic Sourcing & Negotiation:** Led RFQ/RFP cycles and direct supplier negotiations for electronic components and industrial inputs, contributing to mid-high five-figure EUR savings across selected sourcing initiatives.
 - **Import & Logistics Management:** Owned full import lifecycle — freight forwarder coordination, commercial invoice review, and customs documentation — ensuring on-time delivery and landed cost control.
 - **P2P & ERP Operations:** Managed purchase-to-pay flow end-to-end in a proprietary ERP environment, covering purchase requests, POs, goods receipts, and invoice validation — maintaining lead time accuracy and three-way matching discipline in close alignment with finance.
 - **Supplier Development:** Onboarded and qualified new partners across Asia and Europe, building long-term relationships focused on TCO reduction, supply continuity, and risk mitigation.
 - **Analytics & KPI Reporting:** Built procurement dashboards in **Power BI** and **Qlik Sense** tracking spend by category, lead time, OTIF, and supplier performance — reducing ad-hoc reporting requests and improving leadership review cadence.

PROJECTS

- Industrial Procurement Dashboard** guilhermedoprado.com
 - Power BI · DAX · Procurement Analytics* 2026 – Present
 - Spend analysis dashboard across mechanical, metal, and energy categories — covering supplier ranking, PO tracking, cost deviation alerts, and savings realization. Built to reflect industrial procurement workflows in capital goods environments.
- Supplier Performance Dashboard** guilhermedoprado.com
 - Qlik Sense · Supplier Management · KPIs* 2025 – Present
 - Supplier KPI tracking across OTD, quality rejection rate, lead time variance, price deviation, and OTIF — monitored at supplier and category level to support performance reviews and sourcing decisions.

SKILLS & TOOLS

- **Procurement:** Strategic Sourcing, Category Management, Supplier Development & Qualification, Contract Negotiation, RFx (RFI/RFQ/RFP), Spend Analysis, Cost Analysis (TCO), Three-way Matching, S2P/P2P Cycles.
- **Engineering:** Mechanical Production Engineering, Manufacturing Processes, Technical Specification Review, Bill of Materials (BOM).
- **Analytics & Data:** Power BI (DAX, dashboards), Qlik Sense, Excel Advanced (Pivot Tables, dynamic dashboards), SQL, Python.
- **Systems:** Proprietary ERP (inventory control, purchase requests, PO management, invoice validation).
- **Languages:** Portuguese (Native), English (Fluent — C1), German (A1 — actively studying, targeting B2), Spanish (B1).

EDUCATION & CERTIFICATIONS

- **UFSC — Federal University of Santa Catarina** Florianópolis, Brazil
B.Sc. Mechanical Production Engineering *2020 – 2026 (expected)*
- **MITx — MicroMasters Program** Online
Supply Chain Management *2023 – 2024*
 - Advanced program covering Supply Chain Analytics, Design, Dynamics, Finance and Technology & Systems — with strong emphasis on logistics network modelling, quantitative methods, and data-driven decision making.
